

Lowcost upgrade for Alfa-Laval - ALTOP Valve-units VU2, VU3, VU4 to AS-Interface bus-system

- Replacement of the existing Altop Loop (Alert 500) PCB with AS-Interface standard PCB. Easy connection to Profibus and other fieldbuses.
- For all existing valves: SMP, SRC and LKB-A.
- Including AS-Interface junction-box with quick-terminals for round cable.
- Short renovation time converting the system to AS-Interface.
- Up to 62 Valve-units in one AS-Interface loop.
- Address setting through hand-programmer and Sitomatic Fieldbus-master.
- Future save technology compatible with Sitomatic Valve-controllers for other valves and actuators.
